

STERIL-AIRE®

UVC for HVAC™

AHU Viewport For 2" (5.1 cm) Wall/Panel

AHU Viewport For 2" (5.1 cm) Wall/Panel

The Steril-Aire AHU Viewport provides a safe, effective means to view working UVC Emitters™ inside an air handling unit (AHU). The AHU Viewport provides installation flexibility for AHU insulated walls of 2" (5.1 cm). It provides the ability to view the interior of the AHU through a 6" x 6" (15.2 cm x 15.2 cm) clear wire glass without the need to open access panels/doors or disconnecting circuits while offering personnel protection against exposure to UVC light.

Applications

The Viewport provides an observation window to view the interior of medium and large AHUs. For use in air handling unit insulated wall/panels of 2" (5.1 cm).

Benefits

- Allows for viewing of AHU interior and Steril-Aire UVC Emitters without opening access doors/panels
- Quick, easy installation
- Large 6" x 6" (15.2 cm x 15.2 cm) wire glass observation window

Special Characteristics

- 6" x 6" viewport
- Clear wire glass
- Aluminum frame of 6063-T5 alloy tempered to an UTS of 22 ksi and YS of 16 ksi
- Framing and screws made of noncorrosive materials
- Free from defects impairing strength and/or durability
- Easy to install

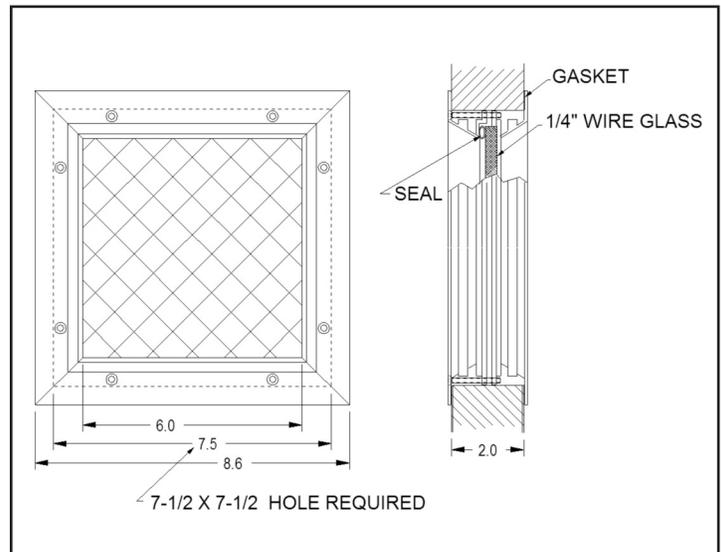

AHU Viewport Specifications

The AHU Viewport shall be factory assembled and tested. The AHU Viewport shall consist of the following:

PANELS: Two layers of aluminum framing with 8 pre-drilled screw holes and 8 screws

GASKET: Adhesive gasket tape on framing perimeter

GLASS: Wire glass 6" x 6" x 1/4" (15.2 cm x 15.2 cm x .6 cm)
